

EPISODE SELECT SCREEN

Choosing a Stage

Hold the B Button on the Wii Remote and move the Pointer up or down to scroll through the stages. The +Control Pad or Nunchuk Control Stick can also be used for this. Point to a stage you'd like to play and press the A Button to confirm your choice.

Adjusting the Difficulty Level

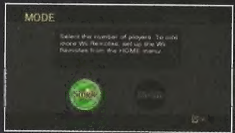

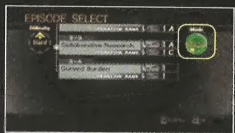

Point to the up or down arrow at the top left of the screen beneath "Difficulty" and press the A Button to change the setting. You can choose from "Easy," "Normal," and "Hard."

NOTE: Some stages have set difficulty levels that cannot be altered.

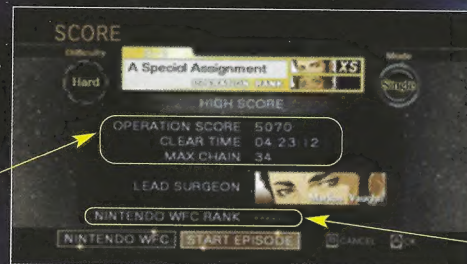

Choosing Between Single-Player Mode and Co-Op Mode

Point to the mode setting at the top right of the screen and press the A Button to display the Mode Select Screen.

On the Mode Select Screen, you can switch between Single-Player Mode and two player Co-Op Mode by using the Pointer and the A Button.

Single: 1 player
Co-Op: 2 players

SCORE SCREEN

By selecting a previously cleared operation, you can view your high score for that procedure. The information displayed will vary depending on whether you are playing Single-Player or Co-Op Mode.

BOTH MODES

1. Score Breakdown

OPERATION SCORE: Highest score earned for this particular operation
CLEAR TIME: Time remaining after the operation was complete
MAX CHAIN: Number of steps completed sequentially without a mistake

2. Nintendo Wi-Fi Connection Ranking

Your ranking for the highest score you've posted via the Nintendo Wi-Fi Connection for this operation.

SINGLE PLAYER MODE

LEAD SURGEON

The doctor with whom you earned your highest score for the operation.

CO-OP MODE

PLAYERS

You can register up to two Miis.

NOTE: Miis saved directly on the Wii console are the only ones available for use here.
